

GALAXY LITHIUM COMPLEX GREASE is lithium soap grease formulated with superior quality base oils, extra pressure (EP) and Anti-wear additives, used for a wide range of purposes in various industries. It is recommended for the wheel ball bearings and central lubrication systems of automobiles, commercial vehicles, sports utility vehicles, agricultural machines and heavy duty machines not used at extremely heavy loads or extremely high temperatures. The product is a general purpose product designed to perform in a wide variety of application requiring grease with EP properties and load-carrying capacity. The blue color makes it easy to identify the application point.

Properties;

- Superior pressure characteristics allow working in pulsed loads.
- It is safely used at high temperatures.
- Provides superior protection against rust and corrosion.
- Extends the life of the bearing by reducing fatigue and wear.
- Shows outstanding anticorrosion protection.
